

**SUBJECT: Invitation to apply to H2020 NMBP Brokerage event**

A [brokerage event](#) for the coming H2020 NMBP work program 2015 is organized by the European Technology Integrating and Innovation Platform on Nanotechnology **NANOfutures** with the collaboration of the European Platforms for Advanced Engineering Materials and Technologies **EUMAT** and Manufacturing, **MANUFUTURE**.

The event will be held at Egmont Palace in Brussels on November 13<sup>rd</sup> 2014 and will be opened by the **European Commission**.

Attendees will have a unique opportunity to **network** and get in contact with top-level European industrialists and world-class researchers in order to find the right partner for the next H2020 proposal. Moreover, they will have the possibility to **present project ideas** in 5 min to the whole audience.

The event will be organized around a number of panels corresponding to each of the NMBP topics open under the 2015 calls. The panels will each be coordinated by a coach that will facilitate dialogue between each participants, proposing their organization or searching for partners. A system will be in place and logistic organized to allow for easy identification of participants and their matchmaking interests.

The brokerage event is free of charge. Space is limited so attendance is restricted to one person per entity and subscribers will be accepted and confirmed observing the need for a balanced participation from industries and research entities.

You can fill the application form online at <http://nanofutures.eu/brokerage/apply>
